Other programs include: Tools For Life, Girls Groups and Boys Groups, and Zones of Regulation. She also checks in pro-actively with students that require it.
- School Improvement Plan: Believing, Achieving and Serving. Fr. Oehring will continue to attend classes and teach students about the parts of the Mass. Under Achieving, Mrs. Fricano advised that the EQAO results indicated the primary students scored very well for literacy. The junior and primary students scored low in the math portion of the assessment. To achieve improvement in math, efforts will be concentrated in the areas of gaps that were indicated. The specific targets will be focused on in the classrooms. Under Serving, the goal continues to be Mental Health.
- To address the Bullying, Mrs. Fricano explained the students recite the anti-bullying pledge every morning. Strategies for reminding students throughout the day to be kind, inclusive and patient were described. This is a plan for the entire school. An indicator of success will be achieving a healthy school certificate through OPHEA.
- HAT (Healthy Action Team) initiatives are many. They will be addressing the bullying survey responses. The majority of episodes of bullying happen during unstructured times at recess and lunch periods. Weekly announcements will include mental health tips.
