

Home Grown Math Success: Parental Engagement in Numeracy

June 20, 2013.

Dear Parents,

Due to overwhelming parental response to our *Home Grown Math Success Project: Parental Engagement in Numeracy*, our board is prepared to offer for use during the summer, a limited number of online licenses for the **SuccessMaker: Math Program**. Priority will be given to children who is achieved Level 2 (C's) or lower in one or more Math Strand on their Report card. This is an excellent opportunity to have your children keep up with their Math skills and help them off to a great start in the fall. June Report Cards will soon be out so here are a few points about the Program to help you make your decision.

If you are interested in this program, please email our online HGMS Registrar Carolyn Bultrunas at hwcdsb.successmakersignup@gmail.com. Once registered, you will receive, by return email, a brochure about the program and information on how to access the program.

What is Successmaker: Math?

It is an adaptive online intervention Math program for **Grades 1 to 6** and it is aligned to the provincial curriculum.

How much time will it involve?

20 minutes a day for a minimum four times a week for 8 weeks.

How much will it cost?

All costs will be paid by the board through Ministry funding.

What computer needs are there?

SuccessMaker: Math supports Internet Explorer 7 or higher and Safari 4 or 5.

Flash 9 or higher and DSL [Bell] or Cable Internet access is required.

Where can to get more information?
