BULLYING PREVENTION FOR PARENTS

Anthony has delivered bullying presentations for thousands of students across Canada and as far as Australia. Now he takes everything he has learned from students and delivers a high energy bullying prevention presentation

for parents!

Topics covered include:

- How to protect our kids from bullies (without turning our kids into bullies!)
- The right time to talk to a teacher about bullying
- Is it healthy for kids to have one "best friend?"
- How to get kids to open up and talk about what's happening at school
- How to break apart cliques
- Creative ways to monitor internet usage
- How to keep kids safe online

Anthony McLean,
Speaker

We promise it won't be boring!

Ask questions, bring ideas, tell him he's wrong!
This is one fun and interactive night not to be missed!

“

I have seen Anthony McLean three times and every time I learn something new. His delivery style is both entertaining and informative. By making the presentation interactive, he gets participants thinking about how they can apply the message.

– Anne Marie Schinkel, Parent

“

Anthony's workshops have had a significant impact on our school. He has a profound ability to connect with people and share strategies that help to create a safe environment for all. I would wholeheartedly welcome him back anytime.
